MIGUEL A. UREÑA PÉREZ

Full-Stack Engineer

Santiago, Dominican Republic | +1 (809) 878-3598 | anguelmiguel31@gmail.com | miguelurena.dev | LinkedIn | GitHub

SUMMARY

Full-Stack Engineer who builds modern, responsive web applications end to end, from React, Astro, and Tailwind CSS interfaces to Node.js and Express APIs backed by SQL and NoSQL databases. Brings a strong foundation in IT support, networking, and infrastructure, plus prior experience in data analysis, e-commerce, and team leadership.

PROFESSIONAL EXPERIENCE

ZitDevs — **Remote**

Full-Stack Engineer — *Jul 2025 – Present*

- Build and maintain full-stack web applications using React, Node.js, Express, and relational and NoSQL databases.
- Design and integrate REST APIs, authentication, and role-based access control for client projects.
- Translate UI/UX designs into responsive, accessible interfaces in collaboration with design teams.

Jr. Front-End Engineer (Intern) — *Nov 2024 – Jul 2025*

- Developed modern, responsive web applications using React, Tailwind CSS, and Astro.
- Translated UI/UX designs into functional, high-quality web interfaces in collaboration with design teams.
- Debugged, tested, and refactored reusable code, improving performance and cross-browser compatibility.

AlphaCom — **Santiago, Dominican Republic**

IT Specialist — *Jul 2025 – Aug 2026*

- Configured hardware and software for employees, managed IT helpdesk tickets, and supported IT projects and initiatives.
- Maintained and troubleshot computer systems and operations, including performing system backups.
- Handled networking and infrastructure-level troubleshooting, ensuring operational continuity.

People First B.P.O.

E-commerce Specialist — *Mar 2024 – Feb 2025*

- Managed and optimized the company's e-commerce website, improving user experience and reducing cart abandonment.
- Collaborated with cross-functional teams to enhance product listings and improve SEO visibility.
- Conducted market research and competitive analysis that contributed to a 20% increase in customer acquisition.

The Dealer Support

Team Supervisor — *Oct 2021 – Jul 2023*

- Supervised work teams at a contact center serving the automotive industry (sales, service, inventory, and analytics).
- Managed business requirements, designed process strategies, and ensured data integrity.
- Defined procedures for data categorization.

Forward Financing

Financial Data Analyst — *Feb 2020 – Jun 2021*

- Collected, processed, and analyzed data to generate insights supporting funding decisions for small businesses.

PROJECTS

Nothirix — Real Estate Platform | *React, Vite, Node.js, Express, MongoDB*

- Full-stack real estate platform for a Dominican Republic client featuring JWT authentication, a three-role model (public/seller/admin), seller and listing approval workflows, OpenLayers maps, and email notifications via Nodemailer.

Calendario Zoé — Worship Calendar App | *JavaScript, REST API*

- Scheduling tool that eliminates conflicts across worship teams, with admin authentication, role-based access control, dark mode, and PDF export.

3Peso — Web Presence | *Astro, Tailwind CSS*

- Website for a Dominican content group, optimized for fast load times and cross-device reach.
